

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

LETTER OF TRANSMITTAL.

COLUMBIA HISTORICAL SOCIETY,
Washington, D. C., December 1, 1899.

SIR:

A bibliography of the District of Columbia, which, in addition to books and pamphlets and maps, includes titles of articles in periodicals, and names of newspapers that have been published in the District, has been prepared under the auspices and at the expense of the Columbia Historical Society by Mr. W. B. Bryan, one of its officers and members. It has required a year's labor to complete it.

Believing that a complete catalogue of this nature is not only of public interest, but of especial value to those charged with legislation for the District, the Historical Society, at whose cost it has been prepared, submits it to the consideration of your committee, with a view to the printing of it for official and public use, if deemed expedient.

I am, sir, with great respect, your obedient servant,

JOHN A. KASSON,

President of Columbia Historical Society.

HON. JAMES McMILLAN,

Chairman Senate Committee on the District of Columbia.

PREFACE.

These pages embody the first attempt to bring together the titles of printed matter relating to the District of Columbia. In addition to the usual difficulties of bibliographic work this has the disadvantage of being the pioneer effort concerning a locality in which the output of a very prolific press for more than a hundred years has been treated with the neglect yet too common in all sections of the United States.

Therefore it is not expected that in this instance an exception has been made to the general rule and that success has crowned the effort to include every title which should be in such a catalogue. It is the hope of the compiler, as well as of the Columbia Historical Society under whose auspices the work has been done, that it will serve a useful purpose in making available material relating to the District.

The compiler has met with ready cooperation and encouragement from a large number of persons. Individual mention of some whose assistance has been helpful was made in a report to the Columbia Historical Society and printed in the third volume of its proceedings. He desires to express his obligations to Mr. Charles C. Darwin, who kindly gave the benefit of his expert knowledge while these pages were in press.

W. B. BRYAN.

DECEMBER 1, 1899.
